

TAMPINES TOWN HUB

Tampines Town Hub, the centerpiece of the Tampines five-year master plan from 2011 to 2015, will be Singapore's **first integrated lifestyle destination** for the 21st century. Offering a variety of facilities and services that will be uniquely integrated for Tampines residents, the Hub will be a place to bring "**Tampines Together**" despite different needs and interests, like the kampong centre of olden days.

While the project is still in its designing stage, **People's Association** has been working hard to engage as many **Tampines residents** as possible and gathering feedback about what they would like to have in Tampines Town Hub, as they want to build a Hub that truly reflects the wishes of the Tampines residents.

ENGAGEMENT PROCESS

As such, the Tampines Town Hub team has been actively engaging residents on the following platforms to get feedback and suggestions:

1. Block parties (by resident councils)

2. Roadshows

3. Facebook <http://www.facebook.com/tampinestownhub>

4. MyTampines.sg/townhub

5. Newsletter and Feedback Form

Starting from February 2012 onwards, the Tampines Town Hub will also be commencing phone surveys and focus group discussions, to gather more in-depth feedback.

PRELIMINARY FEEDBACK FINDINGS

As of **10 January 2012**, the Tampines Town Hub team has gathered feedback from 1,434 Tampines residents. These are the preliminary findings we have received thus far:

82% of you are already aware of the Tampines Town Hub.
